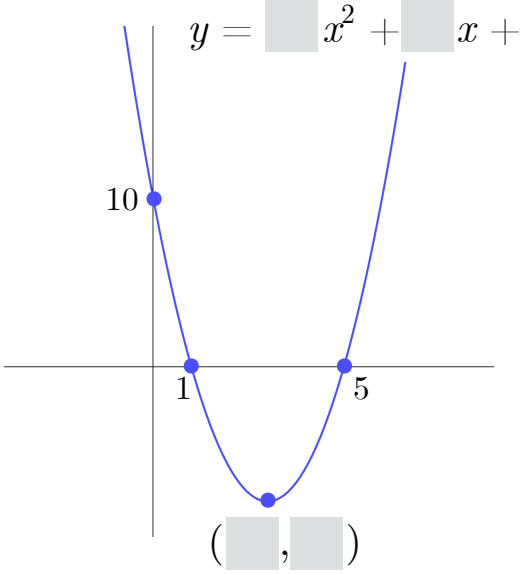
Fill in the blanks:

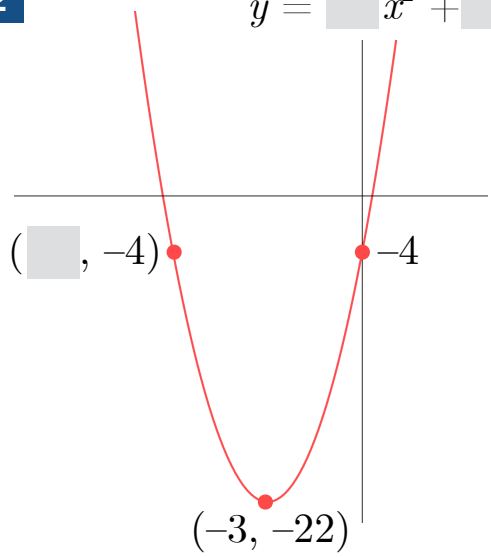
1

$y = \square x^2 + \square x + \square$



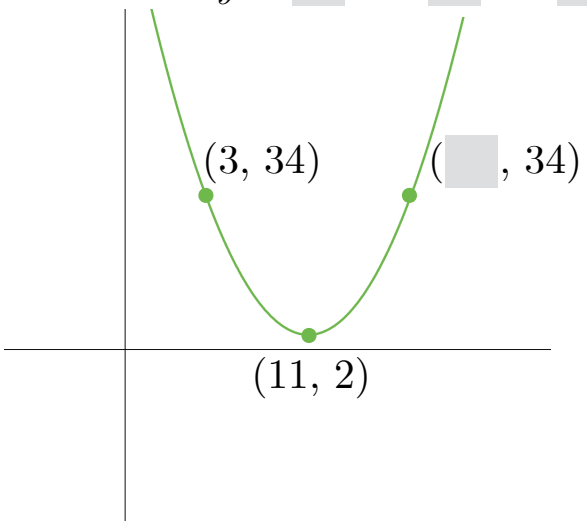
2

$y = \square x^2 + \square x + \square$

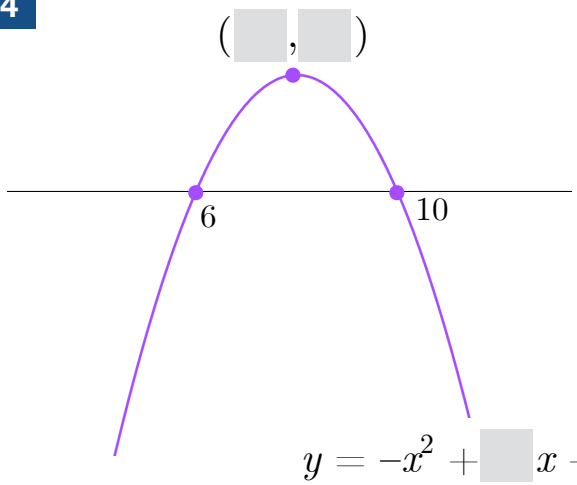


3

$y = \square x^2 + \square x + \square$



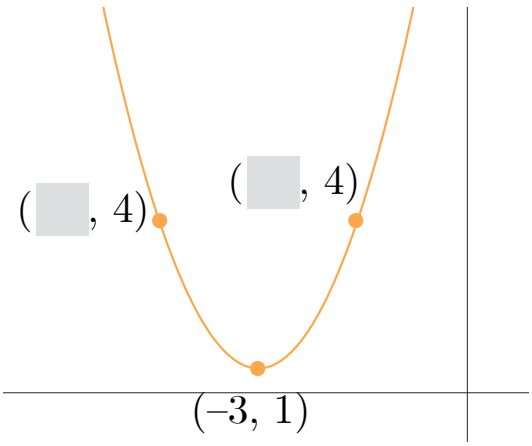
4



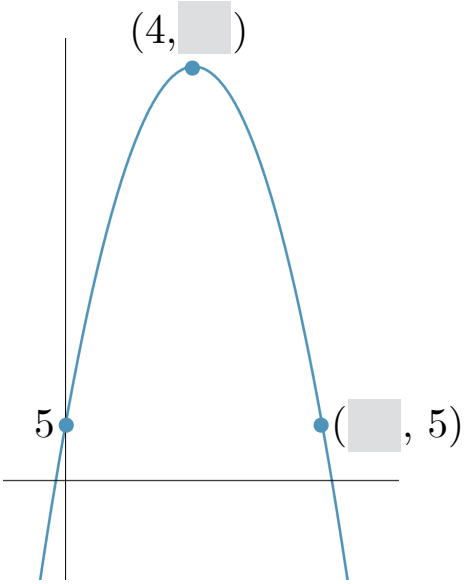
$y = -x^2 + \square x + \square$

5

$y = 3x^2 + \square x + \square$



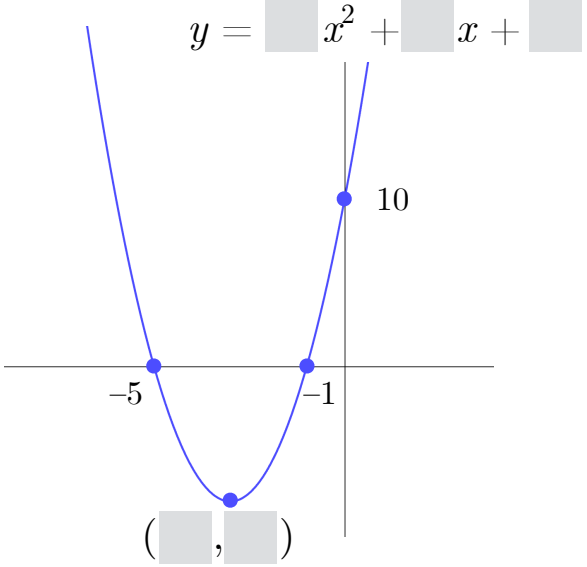
6



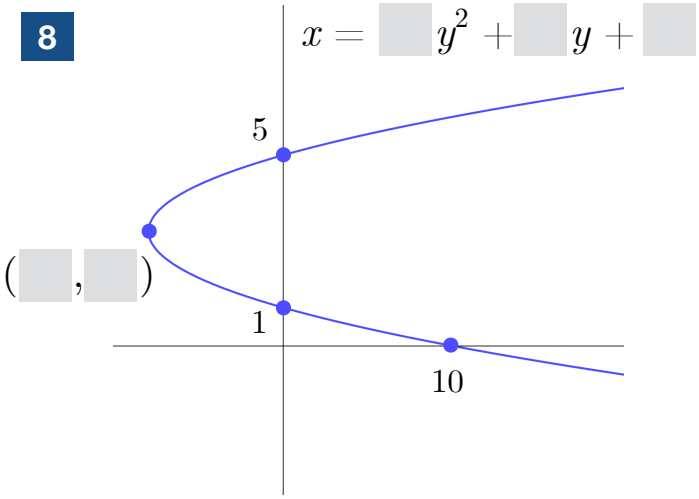
$y = \square x^2 + 16x + 5$

Fill in the blanks. It may help to compare questions 7 and 8 to question 1.

7 $y = \square x^2 + \square x + \square$



8 $x = \square y^2 + \square y + \square$



9 Come up with your own question.
Try to leave as many blanks as you can whilst still making sure to provide enough information to fill them in.
